Figure 4

1. Remove original heater.
2. Remove bottom heater bracket shown in Figure 1 by sliding it (down) off the heater case. This bracket is not used with your new heater. The bracket after removal is shown in Figure 2.
3. Fasten the top mounting bracket into the V cavity located on the top heater tank as shown in Figure 3.
4. Complete heater installation steps as recommended by a vehicle heater installation guide.
